

Different Types of Amazon Services

Making E-Commerce Flow

Amazon Fulfilment Made Easy

- ❑ Amazon is the biggest eCommerce site in the world. Having your products listed and sold on Amazon can introduce you to a global customer base.
- ❑ Amazon gives sellers (clients) the options of having the client fulfil their orders or for Amazon to take over the fulfilment.
- ❑ With Sprint Logistics, you benefit from expert knowledge as well as comprehensive **FBA** (fulfilled by Amazon), **FBM** (Fulfilled By Merchant) and **SFP** (Seller Fulfilled Prime) logistical services.

Fulfilled By Amazon (FBA)

- ❑ FBA is a service provided by Amazon that allows sellers to store their products in Amazon's fulfilment centres. With FBA, sellers can leverage Amazon's robust logistics and distribution network to fulfil orders, handle shipping, and provide customer service.
- ❑ Amazon gives sellers (clients) the options of having the client fulfil their orders or for Amazon to take over the fulfilment.

Fulfilled By Merchant (FBM)

- ❑ Amazon Fulfilled By Merchant (FBM) is a meticulous order fulfillment method where Amazon sellers are accountable for fulfilling the products they sell on the platform. At Sprint Logistics, we offer comprehensive inventory management solutions, enabling clients (sellers) to efficiently manage their inventory through our sophisticated warehouse facilities.
- ❑ For more information on FBM, please click [here](#).

Seller Fulfilled Prime (SFP)

- ❑ Amazon Seller Fulfilled Prime (SFP) is a distinguished fulfilment method that grants Amazon Sellers the privilege of showcasing the esteemed Amazon Prime badge on orders fulfilled through their own warehouse or through trusted third-party logistics providers such as ourselves. At Sprint Logistics, we excel in offering top-notch inventory management services, seamlessly overseeing the client's (Seller's) inventory through our advanced warehouse facilities.
- ❑ **Note: Entry to SFP is only granted after a successful trial period.**
- ❑ For more information on SFP, please click [here](#).

Thank you
for your
time.
