**Making E-Commerce Flow**

A woman in a dark uniform is working in a warehouse. She is surrounded by stacks of cardboard boxes and shelves filled with more boxes. A sign on the right side of the image reads "KEEP THIS AREA CLEAN" and "SO CLEAN UP AFTER YOURSELF!". The background shows high industrial shelving units.

## **What is International Connect Plus?**

# What is FedEx International Connect Plus?

- ❑ FedEx International Connect plus is a flexible international and worldwide delivery solution that is designed with eCommerce, international and worldwide trading in mind.
- ❑ This will allow us to provide our existing clients with a service in which clients can still send out their products to their customer with no headache as they will not be needing to pay the full express rates while still sending all goods out as DDP fully tracked (even if they do not have IOSS set up) at a more competitive price range. As a result, this helps our customers break down the barriers of global trade.
- ❑ By Using FedEx International Connect plus, it allows for our clients to have additional shipping options at affordable prices. As a result, it would allow them to reach their customers in Europe within 2-4 days, North America in 3 days and Asia Pacific within 3-5 days.

## **The benefits to you and your customer**

# The Benefit for you and your customers

- ❑ **Greater value** – Our client benefits from value for money, with their specific delivery needs.
- ❑ **Flexibility and control** – by signing up to FedEx Delivery Manager<sup>®</sup> clients can customise their delivery options. As a result, give their customers more options that suit them.
- ❑ **Peace of mind** – Parcel tracking capabilities give our clients visibility throughout the parcel's start to end journey.

Thank you  
for your  
time.
